Team competition procedures

Drawing of lots

Before each phase of the team competition, the position of the teams is decided by drawing of lots in accordance with o.99.4. This is done by the competition management software as soon as the preceding phase is completely finished.

Individual order of the teams

Team captains give the individual order of the teams (o.99.4) at the table marked "Team Competition" outside the Directoire technique (DT).

Beginning of the competition : Team captains are required to give the order of the individual fencers 30 minutes before the start of the competition.

Following phases of the competition : Team captains are required to give the order of the individual fencers in the teams immediately after the end of the preceding phase.

Qualification for tableau 8

The winning teams in the tableau of 16 must give the masks of all the fencers to STM (for wireless installation) before leaving the venue. The equipped masks can be collected after two hours in the call room.
